Field Trips

Beyond the Books, Into the World!

Supermarket Excursion

Our KG class had a wonderful time visiting a local supermarket to get an idea of how a shop runs. For many of them it was their first visit to this kind of shop and they were so excited to have their own guided tour. To top it off, the shopkeeper generously donated them a whole selection of snacks and ice cream. An enjoyable and memorable morning for our youngest students!

Market Trip

At the same time Class 1 explored the main market area in the town centre. They spent time looking around some of the fruit, vegetable and gift shops and saw firsthand how different shopkeepers run their business. The teachers made sure the day ended on a sweet note by treating everyone to an ice cream.

An Excursion to the Vet

Our middle classes had the opportunity for a field trip to a local vet surgery. They were so interested to see different breeds of dogs coming in for check ups and treatment. The vet explained how sick and injured animals are treated and also provided tips on how to look after their own pets. It helped our students learn how important it is to take good care of animals.

Inter-house Competitions

Different Colours but the Same Dtermination!

Cross-country Race

What a fantastic start to the year! The cross-country race certainly set a high standard for the rest of our inter-house competitions. Congratulations to Shaphi and Mynnang for breaking their class records and kudos to Yellow House for achieving the overall points win. It's always a pleasure to see each student bringing a positive attitude and sense of sportsmanship to the day as they cheer each other on in every race.

Spelling Bee

This proved to be a spectacular day of sharp minds, connection and well-earned celebration. It is always very special when a few ex-RightHopers drop by to support our current students. It speaks volumes about the school's enduring spirit and close bonds. Well done to Red House for winning this particular battle and also to all students who were recognised for their hard work and improved performances in key learning areas during the first semester.

Well-done Daiamon!

It was very exciting to hear Daiamon gained first place in the West Khasi Hills District in the CBSE Class 12 board exams in the science stream at JNV.

We are always thrilled to hear about former students doing well in their academic results as it shows how hard work, perseverance and determination never fail to be rewarded.

Meetings and Events

Meetings that Maintain Student Connections!

- Ex-RightHopers met up in May for the second time this year. The afternoon was filled with music, interactive games and catching up on where life has taken everyone since leaving the school. A special thank you goes out to the talented team of musicians from Kynshi who led the songs and games that everyone enjoyed so much. We love to see how our former students are eager to stay in touch and keep the RightHope spirit alive!

- In June, we hosted a futsal match at a local oval. It was a refreshing morning filled with fun and laughter and also a great opportunity to relax and strengthen friendships. After an exciting game, everyone hung around to catch up, share updates and chat. We took a moment to offer some words of inspiration, encouraging ex-students to keep working hard and striving for excellence. It was a definite reminder of once a RightHoper, always a RightHoper!

Parents Meeting

We held our second parents' meeting at the end of June. These regular gatherings are a vital way for us to keep families informed and deeply involved in our school community. During the session, teachers provided parents with a brief report on each student's progress so parents can understand how their children have grown, learned and settled into school life during the first semester.

One Interesting Thing I Learnt...

STUDENTS' CORNOR

'I enjoyed learning about living and non-living things.' - Ferryha.

'It was interesting to learn the digraph and trigraph sounds like 'ay', 'ee', and 'igh'.' - Arky. *(KG Class)*

'I enjoyed reading new stories and writing a personal narrative. I also learned to do addition and subtraction.' – Abame.

'It was fun learning about the seasons and the way colours change in every season.' - Rila Wahlang *(Class 1)*

'I enjoyed working out addition and subtraction by pretending to buy and sell things during the maths class.' - Dafinia

'I found it interesting to learn about the different types of houses and how they are made.' - Philawanbet *(Class 2)*

'It was fun learning about the Amazon rainforest and the plants, trees, and animals that live there.' - Meban

'I learned opinion writing, and it feels good to have my own opinions on things.' - Haphi *(Class 3)*

'I found it interesting to study about the digestive system and skeletal system in science this term.' - Darikor

'I learned about different landforms of India in social studies and also about Malaysia and its people, languages, culture, and religions, the kind of food they eat, etc. in geography.' - Lapdiang

'I learned about the British Empire, Queen Elizabeth and how India became independent through various movements and freedom struggles in history.' - Nathaniel *(Class 4)*

'I thoroughly enjoyed learning about Costa Rica in geography. It was fun seeing some amazing places in it and the food and the beaches. I wish I could go there one day!' - Deilina

'It was interesting to learn about basic safety and first aid and also about the discovery of antibiotics, antiseptic creams, vaccines and other things in science. It was very informative!' - Bala (*Class 5*)

Classrooms in Action

A special thanks to all our supporters, donors, board of trustees, followers and teachers for your contributions!
